COFFEE BREAK AND SPEED NETWORKING

12:30-14:00

HEALTH & CULTURE OF WELL-BEING

A working prevention strategy at an enterprise first starts with respecting the right to safe and healthy working conditions at all levels. When the government, employers and employees are actively involved in ensuring healthy working environment, it has a positive impact on the profitability of individual companies and on the country's economy as a whole. Don't miss the opportunity to learn more about building a culture of well-being and health in your company.

Maritime Health

HUMAN CAPITAL

Human capital includes the skills, knowledge and abilities that workers bring to their work and how they use them. The main thing to remember is that the more efficiently companies manage their talents, the better they perform. Sessions under this track will remind you that the business isn't just a collection of people and that workers are the lifeblood of business success.
